Dear Parent/Carer

Due to having several students and staff who suffer with asthma please can we ask that wherever possible you do not send your child to school with an aerosol can and provide them with an alternative.

We do appreciate that some students may want to use aerosol deodorants following a PE lesson and whilst we would prefer that they used a different type of deodorant we will permit the use of aerosols within the PE changing rooms. Students are not permitted to use aerosols in any other indoor areas of the school and if found to be doing so they will be confiscated. The decision has been taken to ensure that we are caring for and supporting any member of our school community who may be impacted from the use aerosols.

Thank you in advance for supporting us with this matter.

Yours faithfully

Miss R Ricketts
Deputy Head
