

March 2022

To: Y7-11 Parent/Carers

Dear Parents/Carers

As mentioned in my communication on Friday 11 February, feedback from our key stakeholders is important to moving the school forward. As such, please find a link below to a parent/carer questionnaire. We would really welcome your feedback on both the positives and the not so positives about the school. The information provided will help us in planning for the future. Furthermore, this will become an annual event to continuously gain feedback from all stakeholders to find out how we are doing.

The questionnaire will take approximately 20 minutes and although the questionnaire can be anonymous it is really helpful if you do provide a name as sometimes, in order to get a better understanding, it can be really helpful to contact you regarding a specific comment. The Survey will close on **Monday 28 March**.

For clarity, this is for parents and carers only, students will have the opportunity to complete their own questionnaire very soon.

Please click on the link below to get started
