Autumn 2021

Message from Head of Sixth Form

"After a highly disrupted year in 2020-21 we are looking forward to welcoming our new students and congratulating them on their results this summer. Year 13 also have the challenge of entering their final year and ensuring they are in strong position for the 2022 exam series.

I would particularly like to offer my great pride in all of those in last year's cohort who have despite all the adversity succeeded on reaching the following destinations:

- 64% at University
- 3% Open University
- 3% University deferred to 2022
- 6% Gap Year
- 12% Employment
- 7% Apprenticeship
- 5% Other training courses e.g. Police Training

Huge congratulations to all the students for their hard work. I hope a return to some normality after 18 months of disruption will create a really good learning experience for our current students."

Mr Linnell – Head of Sixth Form

Next Steps

Following Pathways Day 48 students have already completed a university application and are now working on their personal statements. Those students looking at apprenticeships and other progression routes also have all the information from these days and support of their tutors to make applications this term.

Sports Day Victory

A big thank you to all the sixth formers who helped on Sports Day and in particular congratulations to Alfie, Jack, Ryan and Ewan for winning the Staff vs Sixth Form relay race.

RAG Update

Despite all the disruption last academic year the students raised over £2200 for their chosen charity. Well done to all!

A BIG THANK YOU to Ms Reding for organising the Pathways Careers for Year 12 on 19th July and the Escape Rooms experience on Monday 19th July. To all the Year 10's who were brilliant during our Year 10 Taster Day on 19th July, we look forward to support you with destinations in Year11!

Autumn 2021

Youth STEMM Award

The Science Department have an exciting opportunity for students to become involved in an award to recognise time they spend outside of the curriculum preparing for their future plans in STEMM related subjects. STEMM stands for *Science, Technology, Engineering, Maths and Medicine*. We already have a number of students who have started their bronze level. This will really help their applications to top universities in these subjects stand out. Well done to all.

New Sixth Form Leaders

At Taverham we really value developing the leadership skills of our students. Each summer Year 12 students apply to become members of the Student Leadership Team. This year the applications and interviews were all fantastic and students came buzzing with ideas to develop the Sixth Form and help inspire students in the main school. Congratulations to all of those below upon their appointment!
