

November 2021

To: Year 9 Parents/Carers

Dear Parent/Carer

The Design and Technology department, which includes Cooking and Nutrition, at Taverham High School are constantly reviewing their programme of study, schemes of work and projects that are delivered to students and seek to develop projects and recipes that enable delivery of the national curriculum and which students find enjoyable.

The cost of supplying ingredients for students to complete recipes in their Cooking and Nutrition lessons is increasing yet we strive to keep costs to a minimum and at Taverham High School we have opted for a system whereby the students in key stage 3 are provided with ingredients to make all the recipes. In order for this to happen we ask for a contribution towards the cost of the ingredients, which allows the students to complete the recipes and enjoy what they have made, often taking it home to share with families. This also means that parents/carers do not have the responsibility for shopping for small amounts of ingredients, often at an increased cost compared to the bulk buying that we can do at school.

We therefore ask for a contribution of £15 for the year, via Wisepay, which will include all ingredients for all recipes.

If you feel able to support us in this way, please do so by Tuesday 14 December.

Yours faithfully

J Eastick
Head of Design and Technology
Head of Faculty for Creative and Technical studies
