Dear Parent/Carers

### **Battery Collection Scheme**

I am pleased to inform you that Taverham High School has a new battery collection scheme. We are trying to collect as many used batteries as possible and would appreciate it if you could send any old batteries in with your child/ward, which can then be dropped off at our battery collection point. The battery collection point is a white and green box, which is located on the main reception desk.

The scheme is being implemented by our school environmental council in order to reduce harmful waste caused by batteries going to landfill, as they cannot be recycled normally. All batteries collected at school will be sent to a specialist battery recycling plant where they will be processed.

We appreciate your help with improving our local environment.

Yours faithfully

Tomlin Pierssene  
Head Prefect and Environment Council
