Headteacher Dr Roger Harris

To: Parent/Carers – KS3 Students

12 December 2023

Dear Parent/Carer

Academic Reports on MCAS – 15 December 2023

From Friday 15 December 2023, you will be able to access your child/wards termly Academic Report on MCAS which is the Parent portal of our information system.

Within this report you will find attainment information in the form of a percentage score for each subject, alongside the average score for all students who took the same assessment. To help you understand how your child/ward has been assessed, we have also included a description of the assessments. While we accept that this single percentage score offers only a limited amount of information, colleagues have worked hard to ensure that assessments are as broad and informative as possible for students and the information provided is accurate and objective, allowing you to compare your child/wards attainment to their peers.

You will also find, for each subject, an attitude to learning indicator. If your child/wards attitude to learning has raised a concern, the nature of the concern will be indicated in the columns to the right. At the bottom of the report there is some guidance that you can discuss with your child/ward to support them in improving their attitude to learning. Similarly, if your child/ward has not achieved as well as they would have liked, you will find information about how they can increase their understanding in each subject area in the table, at the bottom of the report.

Finally, you will find a tutor report included within this report, describing how well your child/ward has settled into their time with us this year.

I hope you find this information useful. If you have any subject specific queries, please do not hesitate to contact your child/wards subject teacher.

Yours faithfully

Mr G Yassin
Deputy Headteacher
