

Dear Parent/Carer

IMPORTANT INFORMATION
Meningococcal ACWY (Men ACWY) and Diphtheria, Tetanus, Polio (DTP)

In line with the National Immunisation Programme, the Community School Aged Immunisation Service offers Meningococcal ACWY and Diphtheria, Tetanus and Polio vaccinations to all pupils in Year 9.

Meningococcal ACWY

Meningococcal ACWY vaccination helps to protect your child against 4 types of meningococcal bacteria (groups A, C, W, and Y) that can cause meningitis (inflammation of the lining of the brain) and septicaemia (blood poisoning). Cases of meningococcal W disease in England have increased significantly in recent years.

Diphtheria, Tetanus and Polio (3 in 1 teenage booster)

This booster dose is important to ensure a young person's continuing immunity and protection against these diseases. University, College increasingly asks for evidence of this vaccination.

For Further information about vaccines, click [here](#)

A response is required. You must accept or decline the vaccinations by completing the online form.

We will be in school on 24/09/2025.

The electronic link will close on the day of the session.

Please click on this link <https://imms.hct.nhs.uk/dtp/2025/norfolk> and complete the form.

Please note the form will not work on some mobile phones and tablets. Please call 0300 555 5055 option 2 for Norfolk, for alternative consent options.

On the date of vaccination, we ask to see the whole year group. It is important for you to discuss and complete the consent form with your child, so they are aware of your wishes.

If it is not appropriate for your child to have the vaccines in school for whatever reason, please contact us to book a clinic appointment.

Measles / Mumps / Rubella (MMR)

We would also like to remind you that all children and young people should have 2 doses of MMR. If you are not sure whether your child has been fully immunised against MMR, please contact your local CSAIS Team.
