Headteacher Mr Gareth Yassin

10 September 2026

Dear Parents and Carers

We are asking parents and carers to make a yearly voluntary contribution of £15 towards the cost of various materials and resources which will be used in Cooking & Nutrition and Design & Technology. We try to keep the value of our requests to a minimum and the total of £15 is considerably lower than that of other schools but is essential in helping us to maintain a varied and creative curriculum. The contribution is for the areas listed below:

Cooking & Nutrition: £10

As part of the curriculum your child will begin Cooking & Nutrition lessons in September and the contribution will cover the cost of all the ingredients provided for the year. Students will produce up to nine different dishes per year. We aim to encourage all students to cook and eat healthy food. They will be taught a variety of skills to help them maintain a healthy diet, as well as to foster an enthusiasm for cooking.

Design & Technology: £5

The contribution towards Design & Technology will cover the year to undertake a variety of projects resulting in a practical outcome and a functional product. The projects will cover many different specialist areas and will include materials such as wood, metal and plastic as well as electronics, textiles and graphics materials. The projects result in practical outcomes that students can take home, keep and hopefully use.

The school accepts debit and credit card payments online through WisePay.

Yours faithfully

Mr W Housden
Head of Design and Technology
