Headteacher Dr Roger Harris

To: Parents/Carers

November 2022

Dear Parent/Carer

The Design and Technology Department, which includes Cooking and Nutrition, at Taverham High School are constantly reviewing their programme of study, schemes of work and projects that are delivered to students and seek to develop projects and recipes that enable delivery of the national curriculum and which students find enjoyable.

The cost of supplying ingredients for students to complete recipes in their Cooking and Nutrition lessons is increasing yet we strive to keep costs to a minimum. At Taverham High School we have opted for a system whereby the students in Key Stage 3 are provided with ingredients to make all the recipes. In order for this to happen we ask for a contribution towards the cost of the ingredients, which allows the children to complete the recipes and enjoy what they have made, often taking it home to share with families. This also means that parents/carers do not have the responsibility of shopping for small amounts of ingredients, often at an increased cost compared to the bulk buying that we can do at school.

We therefore ask for a contribution of £15 for the year, which will include all ingredients for all recipes.

If you feel able to support us in this way please do so by paying via your Wisepay account.

Yours faithfully

W Housden
Head of Design and Technology
