Autumn 2022

Message from Head of Sixth Form

“A great start to the term with encouraging large numbers of Year 12s joining us and making a very positive transition to post-16 study. It was also great to welcome back our Year 13s after the summer break who are busy looking at UCAS and other post-18 destinations following our Pathways Day in July. This summer was really encouraging seeing Taverham Sixth Form see record results and enter the top-20% of post-16 providers in the UK. Students have joined the forces, started gap years, begun apprenticeships and headed off to universities across the country. We are very proud and wish them all the best, and hope to see similar opportunities this time next year for our current Year 13s”. **Mr Linnell – Head of Sixth Form**

UEA trip to raise aspirations

On Tuesday 27 September all Year 12 students attended a bespoke day at UEA to get them thinking of university / higher education, maybe for them or not. Really good questions and hopefully will clarify post-18 options in 2024.

Early applications to UCAS

Well done to THE EARLY APPLICANTS for Oxford, Cambridge and medicine that were all sent off before the 15 October deadline. Great ambition and hard work by all.

A BIG THANK YOU – to the student leaders who set up subject ambassadors for all Sixth Form courses to provide advice and support for Year 12s from Year 13 students who went through that transition last year.

Autumn 2022

Sixth Form Open Evening and applications

Thank you to all Year 11 students who attended our open evening on 29 September. There was much interest and really good conversations which have led to a large number of applications so far. Students who have applied are receiving individual interviews to help confirm their choices and provide them with a chance to ask further questions. So far these have been successful and interesting.

Students can apply through [HelpYouChoose](#), our [website](#) or use the paper forms issued on open evening.

New Sixth Form Art Studio

Ms Daniels has created a great art studio for sixth formers that can be used at any time. It adjoins the art rooms and has specialist equipment so during independent study students have this facility to use. The department also now has brand new computers for A level photography with the latest Photoshop software, so students can create amazing pieces for their portfolios.
