

Mathematics

You have already had access to induction material, completing tasks for the July induction day. In addition the following need to be completed over the summer and brought with you in September.

Should you wish to practice more maths before your start your course in Year 12, the MyMaths website has a lot of revision material.

Go to www.mymaths.co.uk, username: taverham, password: negative. The screenshot below shows you the different tabs you need to follow. Under the 'Bridging from GCSE' option you will find a lot of lessons and online homework you can try that will help you revise the topics you will need to start the course. There is a 'Bridging from GCSE' option under the headings of Pure, Statistics and Mechanics. You are welcome to try any of these. You can do the online homework without a special login.

The screenshot shows the MyMaths website interface. At the top, there is a navigation bar with 'Log out', 'Help', and 'Assessment Manager' on the left, a search bar in the center, and a 'My portal login' button on the right. Below the navigation bar, the 'Select Curriculum' section is visible, with 'A Level (England)' selected. A sidebar on the left lists 'A Level', 'Pure', 'Statistics', 'Mechanics', 'Further Maths resources', and 'Tools'. The 'Pure' section is expanded, showing a list of topics: 'Bridging from GCSE', 'Proof', 'Algebra', 'Functions', 'Coordinate geometry', 'Sequences and series', and 'Trigonometry'. The 'Bridging from GCSE' option is highlighted in green. To the right of this list, the 'Identities' section is expanded, showing the text 'Understanding identities and arguing mathematically to prove them.' Below this text are two buttons: 'Lesson' and 'Online homework'. Further down, a list of topics is shown: 'Proof', 'Rearranging 2', 'Factorising quadratics 1', and 'Quadratic equations 1'. Each item in this list has a small icon to its right.

Have a good summer and we look forward to seeing you in September
